CDEvents

About CDEvents

Why

Why CDEvents (or events for that matter)

Event Driven Workflows

Event Driven Workflows

CI/CD Observability

CI/CD Observability

First CDEvents Release

We announce CDEvents Release 0.1 Today!

More DevOps Metrics

Incident Events (complete DORA metrics)

Supply Chain Security

Expand Build/Artifact Events and Data model for S3C aspects SBOM, Signatures, Attestations Artifact Signed event Signed events?

Richer Data Model

Expand Test Data model for policy driven use cases

CDEvents in the Wild

- › Continue build POCs (Dora, Emil's POC?)
- › Work together with SIGs, e.g. interop SIG on terminology
- › Work together with Open Source communities to get CDEvents into tools
- › Work with vendors and end-users to foster adoption of CDEvents

Thank You!
